WOMAN MAKES PLEA FOR HOMES ON FARM

Agricultural College Delegates Hear Argument for Rural

A plea for the farm home and for the farm woman was made by Miss Elizabeth B. Kelley, from the University of Wisconsin, at the general session of the Major EDSON A. LEWIS, Sixth Infan Association of American Agricultural Colleges last night.

"I have little use," declared Miss Major WILLIAM C. BENNETT, Six-Kelley, "for the farmer who builds fine most sanitary devices, and all the latest labor-saving arrangements, and leaves his house just as his grandmother or great-grandmother found it.

"The Agricultural Department sends out model plans for barns. We want it to send out model plans for homes as

That the farm women suffer even more from the poverty and the inconveniences of country life than the men, and that it is the unhappiness of the farm woman and her continual complaints that drive most of the country households to migrate into cities, were facts that Miss Kelley gave to justify the extension work in home economics, Which is a line of agricultural education still in its beginning.

Miss Kelley has ifved and worked in the South along the line of rural uplift, and is now working out certain methods of extension teaching for country womcient, C. R. Van Hise, of the University

"The keenly trained minds of the country have been applied to helping the farm men solve the problem of the farm," she continued. "Now, we want that same interest and effort applied to the problems of the women. "We need the help of you men in

bringing the women up to the same progressive plane as the men. We need your help particularly in convincing the women on the farms that we extension workers know a great deal about the training and rearing of children.' Miss Kelley is the first woman speaker which the association has ever had on

Politicians Discussing Presidential Rebuke

The clash yesterday between the President and a delegation of colored men who called on him to protest against race segregation in the departments is causing much comment among politicians.

Colored political leaders openly sa that the Democratic party will get no more support from them. This would make little difference in the South, but Fort Leavenworth, Kans., is designated may make a difference in a Presidential campaign and in many of the Congressional districts in the North.

It is expected the political and other phases of the matter will be threshed out to some extent at a meeting here Monday at Asbury A. M. E. Church. This is by no means the first that has been heard of the segregation question and its political effects. It was discussed more or less some months ago and prior to elections.

Virginia Governor Urges Belgian Relief Work

RICHMOND, Va., Nov. 13.-Hoping to collect a shipload of provisions for the relief of the Belgians, Gov. Henry C Stuart has issued a proclamation calling on the people of Virginia to aid and appointing Col. Henry M. Boykin, of Richmond, chairman of a commission to take charge of the relief work.

Best Laxative For Children

When your baby is cross and fretful instead of the happy, laughing little dear you are accustomed to, in all probab'lity the digestion has become deranged and the bowels need attention. Give it a mild laxative, dispel the irritability and bring back the happy content of babyhood.

The very best laxative for children is Dr. Caldwell's Syrup Pepsin, because it contains no oplate or narcotic drug, is pleasant tasting, and acts gently but surely, without griping or other distress. Druggists set Dr. Caldwell's Syrup Pepsin at fifty cents and one dollar a bottle. For a free trial bottle write to Dr. W. B. Caldwell, 451 Washington St. Monticello, Ill.

HOW TO PREVENT **ACID STOMACHS AND** FOOD FERMENTATION

By a Stomach Specialist. As a specialist who has spent many

stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble that which causes all the pain and difficulty, is excessive acid in the stomach, aggravated by food fer-mentation. Hyperacidity irritates the delicate lining of the stomach and ood fermentation causes wind which distences the stomach abnormally causing that full bloated feeling Thus both acid and fermentation in terfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements -acid and wind. In all such cases -- and they comprise over 90 per cent of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eat ing, from one to two teaspoonfuls of bisurated magnesia, which is doubtharmful or habit-forming drugs. Accept no substitutes. Small size, \$1; regular size, \$2. Sold by leading druggists. Write for booklet of recoveries.

BULGARIA REVIVES FROM WAR BLIGHT

Consular Reports Declare 80 Per Cent of Population Is Engaged on Farms.

Bulgaria is just beginning to recover from the blighting effects of the Balkan war, according to consular reports, but is in no shape to take part in the pres-

The present area of Bulgaria, since the acquirement of Turkish territory is about 47,000 square miles. The popu lation is 4,900,000. Of the total area considerably over one-third is under cultivation with 80 per cent of the population engaged in argiculture.

The cession of territory to Roumania amounting to 2,827 square miles, with population of 200,000, and one of the chest districts in the kingdom, was a economic loss. On the other hand, the acquisition of West Thrace. with its rich tobacco growing districts and its harbors on the Aegean is expected, in time, to prove an advantageous exchange. The new territories which have been ceded to Bulgaria contained in Turkish times a population estimated at 656,000. These regions, in part depopulated by the war and the later struggle among the Balkan States themselves are being settled, so far as possible, with Bulgarian refugees from Macedonia, of whom there are over 100,000 in the country. in west Thrace, now Bulgarian terr

tory, large tracts of waste land are to be reclaimed for tobacco raising. Apart from tobacco, the country produces cereals, cotton, opium, rice, vines, and mulberries. Extensive forests and natural resources exist and also valuable fisheries The Bulgarian government has plans

for extensive railway and port construcport of the first class. Railway com- have called before the Rules Committee Europe is to be perfected. Clash Is Due Over War Preparations

Congressman Gardner's Plan for Inquiry Into Army and Navy May Be Opposed by the Administration at the Coming Session.

By JOHN SNURE.

It has become clear there is likely to be a clash between strong elements in Congress and the Administration over war preparations.

Already signs of trouble are numerous. In the House, Congressman Gardner is not only going to push his resolution for an investigation into the lack of preparation of the United States to defend itself, but he is getting up a list of wit lesses to appear before the Rules Committee and be heard in behalf of the resolution.

HOSTILE TO AN INQUIRY.

officials most concerned are taking an state of the national defense. attitude which makes it plain they are nostile to the inquiry.

Whether this hostility will be such as that efforts will be made either to prevent any preliminary hearing by the Rules Committee or a favorable report after a preliminary hearing. However, Congressman Gardner, who

is one of the most persistent fighters in the House, is taking an optimistic view. work which was suspended by the He believes that public opinion will war. It is hoped that in time Porto force an investigation. He is getting up Lagos may become a Mediterranean a list of witnesses whom he wants to Europe is to be perfected. Trade and statements as to the real situation in

In the list of men whom Mr. Gardne wants called are former Secretaries of the Navy Bonaparte and Meyer and former Secretary of War Stimson. nard Walker, editor of the Scientific American, is another man whom Mr. Gardner wants called. If the investigation should be ordered, it is expected Colonel Roosevelt would be given a

Wants Hearings Arranged. Congressman Gardner has written to

Chairman Henry, of the Rules Committee, asking that two or three days December be set apart for the preliminary hearing on the resolution. This hearing would be on the question whether a commission of investigation ought to be named. But the testimony

The Administration and Cabinet | would go directly to the question of the

It will be impossible, however, to keep down agitation and discussion of the question in Congress, no matter o block a hearing by the Rules Com- how hard the Administration may work mittee on the Gardner resolution has to block the Gardner resolution. Both not yet developed. But it is expected in connection with the army bill, the fortifications bill, and the naval bill, the subject is going to be debated in the House and Senate.

Not since the Spanish war has there been so strong a disposition in Congress to turn the light on the army and navy and endeavor to correct the well-known weaknesses of the American system of defense on land and sea as there is This disposition is by no means of a

partisan nature nor is the matter being stirred up particularly by army and navy men. Mr. Gardner has gone into because, as he has told friends, he elieves it is a patriotic duty. One of the most prominent Socialist leaders of the country has recently said that the time had come when the United States should prepare itself and not allow itself to be caught napping. He does not want militarism or large expenditures on the army, but he wants a great reserve of men trained in demo-cratic fashion, something on the Swiss order, without taking them long from civil life or building up an aristocracy of professional soldiers.

For a Democratic Army.

His view is that the army can be made at once democratic and a great training school for young men in numerous valuable lines of activity and that there is no necessary relation between

themselves in case of war.
